Empower Your Team

See how CL200 opens up a whole new view of your Sage 200 data.

With its responsive design and simple interface, your whole team can be fully up and running from day one, working from any location, at anytime, on any device.

A woman with long brown hair, wearing a white button-down shirt, is shown from the waist up. She is looking upwards and to the right with a thoughtful expression, her hand resting on her chin. The background is a dark chalkboard filled with various hand-drawn white business charts and graphs, including bar charts, line graphs, pie charts, and arrows, creating a professional and analytical atmosphere.

POWER UP YOUR SAGE 200

CL200 opens up access to real-time account data
to put your customers front and centre

CL200 is a user friendly Data Viewer and Task Manager. Connect live to Sage 200 and gain instant oversight of your account data like never before.

SAGE 200 DATA VIEWER

Discover New Business Insights

- Open quotes, orders and invoices, previously only accessible by Sage users in your finance team
- Speed-up customer service by storing account records centrally
- A single data source means no more redundant databases showing different account information for prospects, customers and suppliers
- View your company info at a glance with dynamic management dashboards showing live data including Turnover, Debtors and Creditors, Invoice History, Notifications and Sales Pipeline

Real-Time Data Integration

CL200 shares live Sage 200 data, instantly displaying account and transaction history in real-time. No import or overnight synchronisation is required.

Secure User Authorisation

You control and authorise any number of users to view your Sage 200 data. No additional Sage licences are required, saving you extra costs. For added peace of mind, access is achieved through a secure ISO27001 environment within Microsoft Azure's cloud.

Up and Running in Quick Time

Without the need for any third party connectors or complex onboarding, installation and usability is achieved simply, quickly and cost effectively.

NEVER MISS AN OPPORTUNITY

Schedule and respond to tasks and activities
from anywhere at anytime

TASK MANAGEMENT

Manage Activities

CL200 has a powerful yet simple-to-use Task Manager to track and allocate everyday tasks and activities, so you never miss an opportunity. You can enter Activities such as Enquiries, Meetings, Calls, Quotes and Follow-ups.

Increase Productivity

Teammates can quickly pick-up where you left off thanks to the conversation history, showing date and timestamped notes on each Activity.

Allocate Workflow

No more un-actioned tasks. Activities can easily be re-allocated to individual teammates or to different departments to follow your business workflow or to cover a team member's absence.

Personalise Your View

Start each day organised. Upcoming Activities are visible as soon as you log in.

Lists can be filtered to individual preferences, to fit the way you work. Managers can see all Activities by team or individual, or by Sales, Purchase or Prospect Account.

“CL200 is very easy to use, unlike complex CRM systems. It has been extremely useful to be able to access Sage data (without an additional licence).”

GROW YOUR BUSINESS

Nurture your prospects

PROSPECT TRACKING

Lead Nurturing & Pipeline Management

Power up your Sage 200 data with the added benefit of CL200's Pipeline Management.

Never lose track of another lead. Upload existing prospect lists individually or in bulk. Once imported, allocate leads to your CL200 users and start nurturing your business relationships.

Easily view your customers order history, see the number of times an individual product has been ordered and total value over the last two years. Find patterns in buying behaviour and product popularity.

Sage 200 Integration

By automatically including your Sage 200 information, CL200 gives you the freedom to nurture all your leads in one central place, presenting a clear holistic view of your entire sales pipeline at a glance.

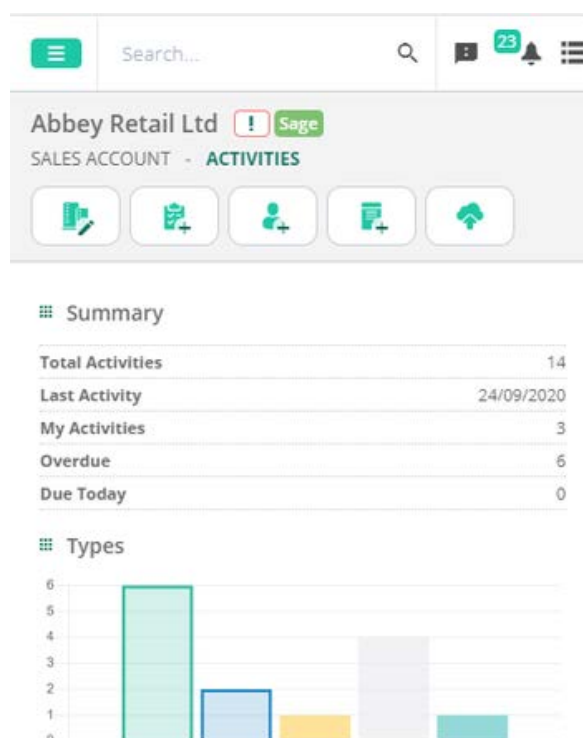

ANALYSIS

Customised Analysis & Segmentation

CL200 gives you the flexibility to categorise your data any way you want. Analysis codes allow smart segmentation and filtering of your accounts and activities.

You can customise your analysis codes with any labels, like industry type, territory, region, sales person, lead source, prospect scoring, pipeline stages. Create labels for anything you want to report on for different areas of your business.

BUILT FOR USABILITY

Intuitive design.

Access live Sage data from anywhere.

EXCEPTIONAL EXPERIENCE

- Low total cost of ownership (TCO) due to minimal expenditure
- High return on investment (ROI) with rapid setup and no lengthy onboarding
- A natural extension to Sage 200, allowing ALL your staff access to live Sage data

Spend Less Time and Expense on Unused Tools and Features

CL200 represents remarkable value. With no requirement for upfront capital expenditure and no long term commitment, CL200's low cost rolling monthly subscription gives you a high return on investment (ROI) with no tie-in. You also have the choice of purchasing a perpetual licence.

Value is enhanced with Sage 200 integration, allowing non-Sage users to view Sage 200 data without the expense of additional Sage licenses.

Unlock Your Company's Potential

Boost your Sage 200's functionality and unlock data for your whole company. Built on the core essentials, CL200 is not cluttered with complex features that will never be used, making it an invaluable tool for companywide use.

Prioritise Your Customer and User Experience

CL200 is designed to be frustration free. With no steep learning curve or overwhelming features, your users are assured easy adoption and rapid implementation.

CL200 instantly empowers your frontline team to see real-time Sage 200 data. When a customer calls, you eliminate delays retrieving account information. No need to keep redirecting queries to your busy finance department.

Easily configure columns, re-order and sort views to suit your individual preferences.

CL200's responsive design is mobile friendly, allowing you to serve your customers from anywhere, at anytime, on most mobile devices.
